Subject: BMC Advisory Board

Dr. Mr, Vinay,

I have been getting regular mails through karmayog & I would like to be on the BMC Advisory Board. Our school is located in Khar & we have about 1800 students. Our Institution is 98 years old and we focus on character building & all round development of students. I am an ex-student of this Institution & today the Principal of the same. I have been connected to different organizations from time to time and would like to help the BMC in upgrading the students through values, stories, role models and excursions. Recycling in all forms is one of our major areas in the school for this we also won an International School Award fro the British Council.

If you need any details do kindly contact me on the above address or call me at 022 26483589.

Thanking you,

In the Cause of Better Education,

I remain,

Yours sincerely,

Rekha Shahani
